-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 January 2004.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

Detailed Action

This is the first Office Action corresponding to original filing. The application contains 18 claims.

Information Disclosure Statement

Receipt is acknowledged of Information Disclosure Statement, which has been reviewed by the Examiner.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 12, 14 and 30. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Kluge (Pat No 6,053,465).

The patent to Kluge shows a shelf bracket comprising an angled member defined by a vertical portion (26), a horizontal portion (22) and a cross brace (27) with a hook (51) for supporting another article.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Reynolds et al. (Pat No 6,303,195).

The patent to Reynolds et al. shows a shelf bracket comprising an angled element defined by a vertical portion (14), a horizontal portion (16) and an ornamental cross brace (18).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are

Art Unit: 3632

such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 3-7 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reynolds et al.

The specific type of ornamentation used with Reynolds et al. is seen as an obvious matter of engineering choice. The ornamentation only appeal to the aesthetic of the shelf support. Reynolds et al. clearly state that different type of ornamentation can be used (see column 3, lines 10 – 13).

Allowable Subject Matter

Claims 10-18 are allowed over the art of record.

The following is a statement of reasons for the indication of allowable subject matter: none of the art of record shows a shelf support bracket having an interchangeable ornamental cross brace wherein the bracket has enlarged portions with apertures formed therein receiving the cross brace.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Judd (104,463), Nolan (541,114), Macduff (883,323), Riblet (5,257,766), Hollinger (D365,748 and D371,507) all show brackets comprising an angled member and a cross brace, some of the cross brace having an ornament.
